

Hi I'm Luffy!
What is your name?

Hi there " ", so you need help
deciding what anime you should
watch. Lucky for you that's my
speciality! Now have you watched
any anime before?

Yes

No

Mmm yes, clearly you are very cultured
"name".
Have you seen Death note?

How Exciting! You are at the beginning of
your journey and there are so many
options!
Does an R16 rating concern you?

Yes

No

Fantastic, I enjoyed Death Note!
did you enjoy Death Note as well?

I would highly recommend Death Note.
An extremely worthwhile watch, the
protagonist Light Yagami finds an
ominous notepad at school one day
and discovers his new purpose.

Fantastic! I recommend
Attack on Titan, main
character Eren Yeager
has lived inside the walls
his entire life, one fateful
day everything changed.

That's just fine, there
are plenty of quality
shows without a mature
rating. Would you still
watch a show if it was
1000 plus episodes?

Yes

No

Excellent, I suggest you watch Code
Geass. The main character Lelouch vi
Britannia battles against the odds as
he fights to regain connote of his home
country.

Seeing as you didn't enjoy Death Note
so much, I'm going to suggest
something that sets a completely
different pace, That time I was
reincarnated as a slime.

Yes

No

"name" you are
extremely brave, one-
piece stands as the
longest anime at 1012
episodes and shockingly
it's still realising every
Sunday, it shouldn't take
you long to catch up.

Okay, a shorter anime it is,
despite only being 22
episodes Jobless
reincarnation is one of my
all-time favourites an
absolute gem.
